Tel: 301-634-7306 Fax: 301-634-7455 Email: abrf@abrf.org

Exciting science is done by graduate students and post docs, and work carried out with the help of core facilities is often seminal to their progress. The ABRF Membership Committee wants core facilities to showcase the exciting work that students and postdocs are conducting in your core!

We invite each ABRF member core to identify one student or post doc who has done outstanding work in their lab. This awardee will receive complimentary registration to present their work as a poster at the [Annual ABRF Meeting 2012](#) in Orlando, Florida.

Selection of the deserving candidate is at the discretion of each core facility and can be competitive. The sponsoring facility and the student's supervisor are responsible for ensuring that the quality of the submitted work meets scientific standards. Travel expenses are to be paid by the student's scientific advisor or the core facility.

An ABRF member from the award-granting core should submit the attached form (or the following information) to **Lisa Hetherington** (abrf@abrf.org) by **December 01, 2011** in order for the student to participate in this exciting opportunity:

Nominating Core: _____
ABRF Member: _____
Student/Posdoc Awardee: _____
Student email address: _____
Student Advisor: _____
Project Title: _____

Once accepted, students shall receive a special registration code to register for the meeting prior to submitting their abstract.
