Association of Biomolecular Resource Facilities welcomes returning Executive Board Members

November 2026

The **Association of Biomolecular Resource Facilities (ABRF)** is pleased to announce the results of the 2026 Executive Board election. These candidates were re-elected to serve new, four-year terms following the 2027 Annual Meeting:

Joe Dragavon
CU Boulder

Jane Srivastava
Gladstone Institutes

Joe and Jane have served in numerous ABRF leadership positions, including Regional Chapters and ABRF Research Groups. They will begin their four-year terms on the Executive Board following the 2027 ABRF Annual Meeting in April.

ABRF appreciates everyone who participated in this year's election. The Executive Board looks forward to continuing to work collaboratively to advance ABRF's strategic goals.

We also appreciate the important work of the ABRF Nominations Committee, led by Marie Adams, who assembled the impressive set of nominees.

Please join us in congratulating these ABRF leaders. Feel free to share your suggestions for the Executive Board's work in 2027 and beyond.

Thank you for your continued support for ABRF.

ABRF Executive Board

Joe Dragavon, *President*
Kym Delventhal, *Immediate Past President*
Sara Bowen, *Treasurer*
Chris Brantner, CAB Liaison
Tim Bushnell
Claire Hartmann
Meghan Kraft
